

LABELS & SAFETY

We take on-the-job safety seriously. Hard hats, safety glasses and vests protect you. Union labels are all about protecting you too. They safeguard jobs, wages, and benefits.

For union contractors, labels help safeguard the significant investments they've made in fabrication shops from competitors trying to undercut your wages and benefits.

But just as you must wear Personal Protective Equipment to get the protection they provide, you must use the labels to benefit from the safety they offer.

Make labeling, scanning, and reporting a priority. And use the label app - a new PPE! - to make using the labels easier and faster.

Labels Protect YOU!
